

Dear Parents

Every year, HWIS parents, and many others associated with our school communities, refer friends and associates to our schools. We'd like to appreciate and thank those people who play such an important role in promoting Happy Wonders. We would like to reward those people who help us to attract students and families to our schools, something that many in our community have been doing for years. Naturally, it is a voluntary initiative. How does it work? You and your friend who is successfully enrolled in HWIS school on your recommendation receive the same reward. Whether you are a HWIS member or non-member who knows children or young people who need places in our happy school, the reward is still the same.
